

Sales Analysis Dashboard (Excel)

An Interactive Excel Business Intelligence Project — E-Commerce Apparel Sales

Project Overview

The Sales Analysis Dashboard is an interactive Excel-based Business Intelligence solution built to analyze e-commerce apparel sales across gender, age group, geography, sales channel, and product category. The workbook transforms a raw order-level dataset of over 31,000 transactions into actionable insights using Pivot Tables, Pivot Charts, and Slicers, enabling fast, data-driven decision-making.

Objectives

- Analyze overall e-commerce sales performance.
- Monitor total revenue and order volume.
- Compare sales performance between Men and Women customers.
- Analyze sales distribution by customer age group.
- Identify top-performing states by revenue.
- Compare performance across sales channels (Amazon, Myntra, Flipkart, etc.).
- Identify the highest-selling product categories.
- Track monthly sales trends across the year.

Dashboard Features

Key Performance Indicators (KPIs)

Total Revenue	Rs. 2,11,76,377 (~Rs. 2.12 Crore)
Total Orders	31,047
Average Order Value	Rs. 682
Women's Revenue Share	Rs. 1,35,62,773 (64%)
Men's Revenue Share	Rs. 76,13,604 (36%)

Interactive Filters (Slicers)

- Product Category
- Sales Channel
- Age Group
- Order Status

Visualizations Included

1. **Monthly Sales Analysis** — Order count and revenue trend across all 12 months.

Month	Orders	Revenue (Rs.)
-------	--------	---------------

January	2,702	18,20,601
February	2,750	18,75,932
March	2,819	19,28,066
April	2,685	18,29,263
May	2,617	17,97,822
June	2,597	17,50,966
July	2,579	17,72,300
August	2,617	18,08,505
September	2,490	16,88,871
October	2,424	16,66,662
November	2,383	16,15,356
December	2,384	16,22,033
Grand Total	31,047	2,11,76,377

2. Men vs. Women — Revenue Split

Gender	Revenue (Rs.)	Share
Women	1,35,62,773	64.1%
Men	76,13,604	35.9%
Grand Total	2,11,76,377	100%

3. State-wise Sales Performance (Top 10 States)

State	Revenue (Rs.)
Maharashtra	29,90,221
Karnataka	26,46,358
Uttar Pradesh	21,04,659
Tamil Nadu	16,78,877
Telangana	17,12,439
Delhi	12,66,328
Kerala	10,08,940
West Bengal	9,22,444
Andhra Pradesh	9,18,499
Haryana	8,13,320

4. Age-wise Sales Analysis — Share of orders by age group and gender.

Age Group	Men	Women
Adult	25.3%	57.2%
Senior	3.9%	8.8%
Teenager	1.4%	3.3%

5. Channel-wise Order Analysis

Sales Channel	Orders
Amazon	11,016
Myntra	7,254
Flipkart	6,703
Ajio	1,931
Nalli	1,484
Meesho	1,398
Others	1,261
Grand Total	31,047

6. Highest Selling Product Category

Category	Revenue (Rs.)
Set	1,05,07,546
Kurta	49,59,377
Western Dress	31,48,836
Top	11,86,199
Saree	10,10,471
Ethnic Dress	1,95,256
Blouse	1,40,888
Bottom	27,804

Tools & Technologies Used

- Microsoft Excel
- Pivot Tables
- Pivot Charts
- Slicers
- Conditional Formatting
- Data Cleaning
- Data Validation
- Dashboard Design Techniques

Dataset Information

The dataset contains 31,047 order-level records of an e-commerce apparel business, including:

- Order ID & Customer ID
- Gender & Age
- Order Date & Month
- Order Status (Delivered / Cancelled, etc.)
- Sales Channel (Amazon, Myntra, Flipkart, Ajio, Nalli, Meesho, Others)
- SKU, Product Category & Size
- Quantity & Currency
- Amount (Revenue)
- Shipping City, State, Postal Code & Country
- B2B Flag

Key Insights

- Women customers drive the majority of revenue, contributing about 64% versus 36% from men.
- 'Set' is by far the highest revenue-generating category, followed by Kurta and Western Dress.
- Amazon is the leading sales channel by order volume, ahead of Myntra and Flipkart.
- Maharashtra and Karnataka are the top revenue-generating states.
- Adult customers (across both genders) account for the large majority of orders, with seniors and teenagers forming a much smaller share.
- Monthly revenue peaks in March and gradually tapers off toward the end of the year, indicating a seasonal buying pattern.

How to Use

- Download the Excel dashboard file.
- Open using Microsoft Excel (2016 or later) to ensure Pivot Tables and Slicers render correctly.
- Use the slicers to filter by Category, Channel, Age Group, or Order Status.
- Navigate between sheets to explore Monthly Sales, Gender, State, Age, and Channel analyses.

Future Enhancements

- Power BI Dashboard for richer, web-shareable visuals.
- SQL Database Integration for scalable data storage.
- Power Query Automation for refreshing data.
- Sales Forecasting using historical trend data.
- Customer Segmentation & Churn Analysis.
- Return & Cancellation Rate Analysis.

Report generated from the Sales_Analysis_Dashboard.xlsx workbook, summarizing its Dataset, KPI, and pivot-table analysis sheets.
